IN THE SPECIFICATION

Please add the following new paragraph after the paragraph ending on page 3, line 22 and before the detailed description of the invention.

Figure 18 is an exemplary embodiment of a user interface displaying an address page.

Please add the following new paragraph after the paragraph beginning on page 11, line 1 and ending on page 11, line 2 with the following amended paragraph.

Figure 18 is an exemplary embodiment of a user interface 450 displaying the address page. If the carrier does not have a website, such as one displayed by user interface 230 (Figure 9), the user is directed to the address page where the user fills in "From Address" and "To Address".

Please replace the paragraph beginning on page 8, line 1 and ending on page 8, line 9 with the following amended paragraph.

Figure 9 is an exemplary embodiment of a user interface 230 displaying the user's selected carrier website to facilitate printing of a label. To complete the transaction, the user inputs requested information to allow the system to generate and print the shipping label. If the carrier does not have a website, the user is directed to an address page ~~(not shown)~~(shown in Figure 18) where the user fills in "From Address" and "To Address" details. Once done, the user selects a "Generate label" button (not shown). The system then shows the shipping label on the screen. A "Print" button (not shown) is provided to print the label. The user selects the print button to print the label on the local printer or through a network printer, if configured.
